Quick Overview

The Mummy and Baby Girl Gift Basket is a beautiful sharing baby hamper for mummy and baby. This hamper gift is a perennial top seller, and has been created to include thoughtful gifts for a new mother and her baby girl.

Details

The concept for the Mummy and Baby Girl Gift Basket grew from a desire to send something other than a bouquet of flowers on the birth of a new baby. A gift that was practical and thoughtful, not just another pretty bunch of flowers that would wilt within a week. This duo purpose hamper has lovely gifts for both mum and baby. A gorgeous organic 100% cotton body suit, and an adorable my 1st teddy comfort blankie that's guaranteed to become Baby's best friend. The new mum will discover a bottle of "mummy" silky soft gorgeous body wash packed with moisturizing and nourishing ingredients including white water lily, chamomile and avocado oil to help replenish elasticity and keep skin supple , and a bag of well deserved scrumptious chocolates. We were the first company to introduce the "mummy and baby" gift package concept in 2004, and it has gone from strength to strength. We still include the same high quality core items as we did then, as every new parent knows, quality doesn't diminish over time. We are proud to never sacrifice our core values of brand quality contents, despite the world economy driving up prices on raw materials prodigiously. At Basketsgalore you will always be guaranteed our trademark seal of approval - if we wouldn't use or clothe the items on our own babies they will not be included. We would simply prefer not to exist in business, than put our name on a baby gift that isn't first class.
