Details

Our popular range of non-alcoholic hampers is characterised by our desire to create better, modern food hampers that celebrate high quality foods with a variation of flavours. As a hamper company we believe that high quality foods overrule the inclusion of mediocre alcohol, and we wanted to share our passion about popular excellent foods with our customers. This non-alcoholic Erbium hamper was created with a focus on the most popular products we know recipients want to receive. In particular we know our recipients love to receive chocolate in their hampers, for this reason we added lots of chocolate snacks and a chocolatey cake. We also added unique items such as chocolate cucumber relish and soda bread toasts which will tingle taste buds in an unusual way. The popular Erbium non-alcoholic hamper was created with a warm colour scheme flowing through it to bring comfort to the recipient, creating a perfectly thoughtful gift. The warming yellow and orange colours will feel like a ray of sunshine when opening and unpacking the gift hamper filled with goodies and treats. This combined with all of the high quality non-alcoholic food items creates a popular gift for any occasion. Only once the products are harmonious in colour, taste and purpose were the hampers finalised. We are sure the recipient of this gift will not have tried most of the products within our non-alcoholic range of hampers, they are filled with curiosity items making a memorable gift the recipient will be sure to talk about. When we critique and perfect our hampers to this level we know that our customers will be happy with them
