Quick Overview

Revamping our popular Fancy Pantry Hamper for a Birthday Milestone, the Birthday Fancy Pantry ticks all the boxes for a Milestone Birthday. The sought after Fancy Pantry is traditional in flavours and heritage, the Birthday Fancy Pantry is themed around tea and biscuits, we agree, it is a different spin on a 21st Hamper, usually centred around alcohol and spirits. However, we have created a vibe which is daring to be different but works.

Details

Birthday Fancy Pantry reflects the quality of the products, the traditional tea and biscuits theme is always a winner. Traditional but classy, avoiding fad products, we have created something effortless, but perfected after years of testing and improving our Birthday Hampers. Perfect for a Milestone Birthday with a personalised mug, and tailored cake sleeve and Birthday card, to make it extra special. To compliment the selection of teas and coffees, there is an array of baked treats and chocolates, even including a Birthday cake, you would be wrong to say No to this for your gift. The revamp of our Fancy Pantry is simplistic in its ideas, but when executed to perfection, it becomes idealistic for a Milestone Birthday Hamper. With no unusual flavours, the modesty becomes one of the best features, as it is infallible, however, Sparkling Apple Crush creates an enticement and splash of boldness amongst the simplicity.
