Details

Christmas Larder focuses on classic foods that anyone would be lucky to have in their kitchen cupboards. With the Christmas Larder Gift Basket it was important for us to have a non-alcoholic gift basket as we are aware that not everyone drinks. Even if you do drink, you might not always want to give someone alcohol every Christmas and might be looking for something different this year. We think this is an amazing alternative. It still contains a drink element in the sparkling apple juice, that everyone can enjoy (even any children!), as well as tea and coffee. We have mixed both savory and sweet gourmet foods in our Christmas Larder Gift Basket to create the perfect blend to excite your taste buds. Christmas Larder Gift Basket is at a very reasonable price point with great quality products. This Christmas gift basket is large enough to be shared within a small group for example within a family setting but at the same time it is also the perfect size for an individual to treat themselves. There is a dark red colour theme throughout this gift basket. This really makes it the perfect gift basket to tuck into on a cold Christmas night in late December. When we create our gifts we are very conscious of the fact that every aspect of the gifts is important. The colours have to work together, the tastes have to be complimentary. It is only when we scrutinize every aspect of every product going into our gifts do they come together to be more than just a selection of products but a gift as a whole. This Christmas send the Christmas Larder Gift Basket to someone you care about and they will be able to tell the love and thought with which it was sent.
