

Pot of Dreams "Live laugh Save Money" Pot

£9.99

OUT OF STOCK

Quick Overview

Made from ceramic, each Pot of Dreams money pot is hand decorated featuring fun designs often finished with glitter and diamantes. The pots come with a wide slot in the top big enough to fit both coins and notes in, but unlike most piggy banks or money pots, it does not have a hole at the bottom to retrieve your saved stash meaning you have to break into the pot to get access to the money – giving you more of a reason to keep saving until its full. A standard sized Pot of Dreams can hold over a thousand pounds in two pound coins, whilst the large pots can hold a thousand pounds in one pound coins, so whether it's for a holiday, special occasion, or just a rainy day the Pot of Dreams has real saving potential and if you've never been any good at saving and always find yourself dipping into the pot towards the end of the month, this money pot could help you achieve what you always thought impossible. Whether you choose to smash open the money pot to gain access to your pennies, or attempt to carefully ease open the top (which is possible) so that you can re-use the pot as a decorative piece, we hope you have fun spending the hard earned, and well saved contents. Please note that due to the nature of the product, and each being hand decorated the colours and designs may vary slightly from that shown in the image. Not suitable for children under 36 months Please take care when breaking into your pot.

Details

Save up for the important things with this money pot from Pots of Dreams decorated with small red graphics of hearts, some embedded with shining jewels. The front of the pot reads 'Live, Laugh, Save' and the words on the back read; 'This money pot is, For hopes and schemes, To help you save, For all your dreams.'
