Details

The Sunflower Gro'Pot set comes with everything you need to grow your own sunflowers. The special thing about the Gropot is that there is no waste. The packaging itself is turned into a pot! Each pot includes a self-watering gel pack which helps water the plant for you with no hassle, making it easy to grow your plant. Once the plant is grown, transplant the whole box into the garden or into a larger poy and let the box naturally bio-degrade as your plant grows bigger. This makes the perfect gift to cheer up anyone with sunflowers!
