Details

Thoughtful Mothers Day Gifts don't grow on trees, but our solution does grow. Flowers are traditionally the way of delivering thoughtful gifts, but they struggle to travel beyond a local level. So we take the thoughtfulness associated with flowers, and translate them into Gifts for Mothers. The ‘Thoughtful Mothers Day Gifts’ is one of our many new gift baskets that make up the Flowering Gift Baskets range to provide more choice and value in such a popular genre. It comes with a beautiful flowering rose plant, an ideal and lasting alternative to sending a bouquet of flowers, and is filled with delicious sweet treats such as Holmes Caramel Fingers and Skelligs Handmade Chocolate Truffles. Top it off with a ‘Super Mum’ mug and a wooden picture from East of India with the wording "You Are The Mum Everyone Wishes They Had", and you have a thoughtful and exceptionally beautiful gift to show your appreciation for a special Mum on Mothers day.
