## Quick Overview

Surprise a special woman with this lovely birthday gift basket filled with a potted rose plant, a cute sewing kit, a birthday cake, chocolates and other tasty snacks she will love.

## Details

Birthday Bloom Gift Basket is a pretty birthday gift, perfect for sending to a female friend or relative and particularly one who enjoys craft, appreciates flowers or who would love trying innovative and tasty snacks with a healthy emphasis. A flowering potted rose plant provides a refreshing alternative to the usual bouquet of flowers and lasts for months longer; a gift that just keeps giving. Of course we believe every birthday needs to be celebrated with cake and so we've included a delicious iced birthday cake which can be customised with any age you wish. Just write the age you would like in the gift card message and we will include this on the cake and card.
