Details

The best thing about memories is making them. Sometimes memories can sneak out of your eyes and roll down your cheeks. It's hard to forget someone who gave you so much to remember. Today I caught myself smiling for no reason, then I realised I was thinking of you. We do not remember days, we remember moments. Time moves in one direction, memory in another. The best memories are the ones we make together. Thinking of you. Sometimes, happy memories are the ones that hurt the most. To think of you is to smile. You never know the value of a moment until it becomes a memory. A good life is a collection of happy memories. A smile happens in a flash, it's memory lasts a lifetime. The goal is to die with memories, not dreams. Memory is a way of holding on to the things you love, the things you are, the things you never want to lose. Memories warm you up from the inside. Good times come and go, but memories last forever.
