You know you're getting old when the only thing you want for your birthday is not to be reminded of it. Birthdays are good for you - statistics show that the people who have the most live the longest. A Happy Birthday is measured not in the amount of gifts one gets, but in the amount one is loved. Your birthday is a special time to celebrate the gift of ‘you’ to the world. Birthdays are nature‘s way of telling you to eat more cake. Every year on your birthday, you get a chance to start anew. The best way to remember your other half's birthday is to forget it just once. If everybody was treated like they matter - everyday; birthdays wouldn’t be so special. You know you're getting old when the candles cost more than the cake. The best birthdays of all are those that haven't arrived yet. Live everyday like its your birthday. A birthday is just the first day of another 365-day journey around the sun. Enjoy the trip.
