Details

Choose a job you love and you will never have to work a day in your life. Work to become, not to acquire. Find out what you like doing best and get someone to pay you for doing it. It's not what you achieve, it's what you overcome, that's what defines your career. There are two rules for a successful career: 1). Never reveal everything you know… The only place where success comes before work is in the dictionary. Pleasure in the job puts perfection in the work. New Job. The only way to do great work is to love what you do. Don't pick a job with great holiday time, pick one that doesn't need escaping from. The harder you work for something, the greater you'll feel when you achieve it. If a job's worth doing, it's worth doing well. A job you like adds five days to every week. Hard work and determination will get you where you want to go. A job isn't just a job – it's who you are.
