Details

With recognisable gourmet sweets such as Lindor, and contemporary chocolates to try such as Doisy & Dam and Love Raw, this Birthday Gift basket has all the chocolate any woman could ever want, or need for her Birthday. To ensure the Birthday Gift Basket is suitable for everyone, the flavours are all natural and we have avoided anything unusual, however, they are all still gourmet products, as only the best will do for a Birthday.The mug can be a milestone by selecting the age in the drop down, or it can be generic, (by mentioning the recipient's age in the Gift Card message we can customise the Cake Sleeve, to make it that extra bit more special.) The pampering drum contains a variety of lavish products including; body wash, body butter, hand and nail cream and a luxury bar of soap. This Birthday Gift Basket has everything in one, the pairing of chocolates and pamper items for a Birthday, yet all together it looks outstanding, the colour coordination of the products and the personalisation that goes into the card and cake sleeve. You won't find anything better, guaranteed.
