Details

Guaranteed to leave them hungry for more, the contents of this tasty gift box have been carefully selected to represent a harmony of energy and originality. A selection of modern and classic contents are carefully balanced with equal representation between the savoury beef jerky, cheese, multiseed toast crispbreads, olives and the sweet high cocoa content chocolates truffles and freshly baked cake rounded off with a bottle of pure sparkling apple juice from Ireland's orchard county. The end result is a discovery food gift box to keep their interest piqued, and make them hungry for more. This Gift is perfect for individuals who avoid alcohol. 45% of adults do not drink, this is why it is essential for us to include non-alcoholic versions of our Gifts. We don't like to include non-alcoholic wines, but prefer to offer an alternative. The sparkling apple juice we have included with this Fun Fresh Flavours Gift is perfect for enjoying with cheeses and chocolates, it also keeps up with the theme, to be fun and fresh, nothing is better than crisp apple, with a spark. Including two cheeses this gift is perfect for those who are turophiles, and enjoy the creamy goodness. Cheese is extremely popular at Christmas time, when we all love to indulge ourselves and get right down deep in those calories. This gift is perfect for those individuals who love cheese and all the sweet things in life. We ensure that when an individual receives their gift, they don't have to buy anything else to enjoy the products, that it is complete. That is why there are soda bread toasts for the cheese, and chutneys also, with a cute pouch of olives, and why not throw some sea salted corn in there too! We have also included some sugar, for that sweet tooth, by the inclusion of Willies Cacao chocolate bar and Chocolate Praline truffles. You can't say we have missed anything.
