### Details

Our top-selling range of alcohol-free hampers is characterised by our desire to create better, modern food hampers that celebrate high quality foods with a variation of flavours. As a hamper company we believe that top-selling high quality foods overrule the inclusion of mediocre alcohol, and we wanted to share our passion about excellent foods with our customers. This alcohol-free Cerium hamper was created with a focus on the top-selling products we know recipients want to receive the most. In particular we know our recipients love to receive chocolate, for this reason we added lots of chocolate snacks and a chocolatey cake. We also added unique items such as real fruit jellies and cucumber relish which will tingle taste buds in an unusual way. The top-selling Cerium alcohol-free hamper was created with a natural colour scheme flowing through with a pop of bright blue to add an element of fun to the hampers. The colour scheme combined with all of the top-selling, high quality alcohol-free food items creates a perfect gift for any occasion. Only once the products are harmonious in colour, taste and purpose were the hampers finalised to create a top-selling range. We are sure the recipient of one of our hampers will not have tried most of the products, especially within this top-selling alcohol-free hamper, it is filled with curiosity items making a memorable gift the recipient will be sure to talk about. When we critique and perfect our hampers to this level we know that our customers will be happy with them
