Details

The Gardening Women's Birthday Gift Basket is perfect for a woman who loves to be outside, the wildlife attracting flowers will make your garden a prettier, busier place to be. Furthermore, this is the Gift Basket that keeps giving, the strawberry plant will keep flowering, and provide enjoyment for months after her Birthday. The food products we have carefully selected are all green and organic, avoiding additives and preservatives, with gourmet olives, beautiful dried pears and some fun sugar free gummy bears. However, it is for a Birthday, so we had to include some luxury Lindt Lindor Assorted Chocolates, and some rich Chocolate Shortbread. Also, with a magazine focused on gardening, to spark new ideas and give inspiration on how to attract more wildlife, make her garden brighter or just to enjoy reading while relaxing. We picked earthy and natural colours to ensure a gardening theme was prominent through-out, with natural flavours and produce, as a company we also try and buy local to support local business, meaning our products are green and environmentally friendly too, important for environmentalists.
