### Details

The Women's Sports Birthday Gift Basket aims to help women in sports rejuvenate themselves after sports on their Birthday. Women who play sports need to revitalize and look after themselves too, which is why at first glance this does not look like a traditional sports Gift Basket, as it is for a Birthday, we focused on the element of restoration, with luxurious body scrubs and cocktail bath bombs, you will be feeling your personal best. The products we chose are snack sized, with low calories but still indulgent, as women with fast-paced lifestyles still need treats, and when else to overindulge, than on your Birthday. Birthday Gift Baskets need a treat element, which is why we included Lindt Lindor Chocolates, individually wrapped so if fitness and health is a passion they don't have to be eaten all at once. For chapped lips and blisters, common in all sports, we included lip balm, something small, yet when you think about it, you can never have enough of them? We really have thought about every element in this Birthday Sports Gift Basket, for after training any woman can enjoy her magazine, a bath with the bath bombs and enjoy a high fibre, low calorie treat, can you name a better way to spend your Birthday?
