Details

Our New Home Range includes an abundance of teas and coffees, the perfect mix of delicious treats, and a beautiful selection of non-food items to help the recipients settle in their new home. Each Basket also contains a decorative East of India Home Ornament. Moving house can be stressful, but this New Home Hamper will help to ease the transition and bring back the excitement for the new homeowners. Tea and Coffee are essential to making us feel at home. For that reason, we've included a double helping of tea in this new home gift, as well as a box of SD Bell city-roasted Coffee Bags. These Coffee Bags work exactly the same way as teabags- stick them in a mug, add water, let it brew and you're good to go. A quick and easy way to get your caffeine fix. To pair with a cup of tea or coffee, we've included a gorgeous selection of baked goods including honeycomb slices, Irish Oat Cookies and a freshly baked chocolate cake. On top of this, this New Home gift also includes a wide variety of rich chocolate snacks, perfect for sharing among visitors. We've incorporated a savoury element into this new home gift with chilli and oregano flavoured olives, crispy seaweed thins and Spanish honey which comes beautifully presented in a terracotta jar. The Candle and Diffuser will help to create that crucial new home scent, as well as warmth, helping the recipients to feel more settled than ever before. The decorative home ornament adds a real personal element to this gift. It comes printed with a thoughtful message and is something the new homeowner can cherish for years to come. This basket is made up of warm, inviting colours while the green ribbon and gift card help to signify new beginnings.
