### Details

Who doesn't love being treated on their birthday... Birthday's are a great opportunity to show someone how special they are to you. This can be done by sending one of our expensive Birthday gifts, always priced at over £100, they are for shoppers unaffected by price. All of the products we include inside are expensive, high quality treats you would only get to try on a special day like your birthday. Our Birthday gifts have been designed to be the best. Often on our birthday we receive so many Birthday gifts from loved ones it can be hard to remember who each of them is from! When you send one of Baskets Galore's Birthday gifts, you can be sure the recipient will remember exactly who their thoughtful present was from, it will be the best! With the best quality products included it will be a present to remember for sure. This range of Birthday gifts was created with young 30-50 year old women in mind. It is one of our younger Birthday gifts, with the inclusion of fun products such as a "Happy Birthday" colourful mug, cake and chocolate bar. These birthday treats combined with young, fresh tastes such as coconut bites, chocolate popcorn, and strawberry and champagne truffles make it a memorable gift. This Birthday gift is a thoughtful treat for the recipient, with a beautiful and bright keepsake mug to hold onto as a keepsake. The recipient can relax with their feet up, enjoy a relaxing cup of ethical tea with their new mug and a delicious slice of cake. We really have thought of it all, by sending this Birthday gift you as passing on our thoughtfulness to the receiver.
