Details

Bring the warm feeling of familiarity to someone special to you with the Afternoon Tea gift basket from us. This gift basket fits into our more traditional tea and biscuit offerings, bringing you everything you would expect from such a time honoured classic, without falling into the tired old trappings of trying to reinvent a classic. As part of our Simply Tasteful range, this gift basket has been created with a clear design goal, to use our experience and feedback from our customers to create a gift basket we believe hits every point that our customers, and we, would expect from a Tea and Biscuit gift, without adding superfluous products that don't follow our design ideals.There are some critical items we think are required for a traditional Afternoon Tea gift basket, of course you need high quality teas, and we include two of these from specialist tea suppliers that we're confident you'll fall in love with. You also need delicious biscuits to dunk and crunch while you sit for your afternoon relaxation. For this we've found producers from near and far to bring the variety and quality you deserve, with farmhouse made oat biscuits, to Swiss tea biscuits that are a perennial favourite. We bring together all our years of expertise and passion for providing our customers with an exemplary gifting experience when we create our products. We source our products from suppliers that we can build a relationship with, that we know are ethical, great value, and most importantly, delicious! When you receive a basket from us, we're confident that our knowledge of our craft is displayed clearly in the beauty of our products, carefully packed, wrapped, and packaged to give that fantastic feeling of a surprise gift upon opening, while still staying safe and sound through the delivery process. When you need to convey your feelings don't settle for anything but the best, and let us bring the weight of our experience and professionalism to bear on your gift basket solution. Simple ordering, simple delivery, simply tasteful.
