### Details

We invite you to Savour the Flavour with our new mid range offering from our Simply Flavourful collection, featuring all the wine and cheese staples you love and expect, with a huge variety of indulgent treats to pique your interest and satisfy your taste buds. This flavourful gift basket would be ideal for family or a partner overseas that has a taste for the finer things in life. It could also be ideal for those looking to send a delicious treat without relying on overly sugary foods. We have years of experience in creating, producing, and delivering luxury gift baskets to satisfied customers, and in that time we have learned some key irrefutable truths about our craft. The most important element, is that a gift basket isn't a gift basket. This might sound crazy at first, but we know that our gift baskets carry so much more than delicious food inside them, even more importantly they carry the feelings and emotions of our customers, their congratulations, their commiserations, and above all their desire to say, I'm here in thought, even when they can't be in there in person. Some people want to show their family far away that they're always on their mind, and some want to show a business partner that some things are too important for a simple video call, whatever your reason, we understand that you're entrusting us with these precious things, and we pride ourselves in carrying them through to completion. The Savour the Flavour gift basket arrives in a beautiful white wicker shopping basket, presenting a beautiful setting for the arrangement of yummy foods waiting to be enjoyed. Our expert basket creators assemble each and every basket by hand before carefully gift wrapping it to keep everything safe and sound, and give that much desired wow factor upon arrival.
