Quick Overview

The Vibrant Birthday basket is a brilliant gift solution for a high spirited birthday girl with a huge energy for life.

Details

The Vibrant birthday basket has been designed to target the younger woman birthday gift demographic in the UK. It's been designed by our younger female staff members in the 20-25 year age group. It's been filled with unconventional and modern foodie treats and snacks with a healthy emphasis which young women today have come to expect and appreciate in their busy lives. No ladies birthday basket would be complete without a classic birthday cake so we've even included one of these too
