Quick Overview

The Birthday Blossom gift basket is a winning gift idea for a chic birthday girl, and much more impressive than a boring bouquet of flowers.

Details

This flowering birthday basket has been designed as an alternative gift to a flower bouquet. Today's young women are more demanding in their birthday gifting requirements. A flower delivery with a few days shelf life is seen as wasteful. This contemporary gift basket, featuring a host of treats combined with a pretty potted rose plant that lasts for months, will appeal to a young woman due to it's reduced carbon footprint. The wicker basket can be recycled as a pretty storage container in her home for many years to come.
