We've also included a trio of colourful little 100% cotton skin kind baby socks by Frugi Organics to keep baby's feet warm. And for entertainment purposes there is the fun and colourful Playful Pupsqueak Puppy. An award winning developmental toy from Lamaze Learning Curve with a multi-purpose portable clip which means take-along fun attaching to prams, car seats and changing bag. Pupsqueak can "bark" when his nose is touched, and rattle sounds when shaken. He is soft and cuddly and features bright colours and contrast patterns that help stimulate visual perception. Baby can discover surprise crinkles and Pupsqueak's bone on his rope. The perfect first companion for baby, and an invaluable playmate to entertain from birth right up to 24 months.
