### Quick Overview

The Hug You Better gift basket is the ideal comfort gift, and the perfect gift to send when you can't be there in person to cuddle someone that you care about.

### Details

The Hug You Better gift basket is perhaps more suited for a younger lady or a female who is young at heart. The focal point is the lavender cozy hottie microwaveable bunny. A toy and comforter in one, it has a heatable lavender filled pouch that can be heated to release soothing and warming aromas. There is also a lavender sleep well eyemask which complements the lavender bunny to leave the young lady feeling soothed and relaxed. The basket contains a light hearted reading novel and this weeks edition of OK Celebrity magazine. There is a puzzle book, an adult colouring book and colouring pencils to keep her entertained while relaxing her mind. A Wild Olive bath tea bag is also featured in this gift basket, containing natural salts and oils for when she wants to soothe her body in a relaxing bath. These items are combined with a box of luxury hot drinking chocolate pods from Butlers Chocolates, to help her curl up with a mug of pure hot chocolate. All this is combined with a box of hand baked dutch toffee stroopwaffles, a healthy bag of apple crisps, and a yummy pack of 100% vegan chocolate butter cups. A collection of sweet treats and huggable gifts that's guaranteed to make her feel loved and special.
