The Heavenly Pamper Gift Basket is filled with a collection of out-of-this-world bath and body pamper treats designed to take women on a journey miles from the humdrum of the daily grind. We've hand selected a collection of high quality pampering gifts for women which compliment each other beautifully, and result in a truly celestial pamper gift basket that a woman of any age will appreciate. Our beautiful, custom weaved wicker gift basket in a pretty and practical shopper style is both eye catching, and sustainable, due to it's purposefulness year-on-year after the contents of the basket have long been consumed and enjoyed by the lady who receives it. The first component of the Heavenly Pamper basket is the best selling and ever-popular Au Lait Luxury Gift Set for women from Scottish Fine Soaps. Made with the natural goodness of creamy organic milk this body wash, body butter, cleaning bar and hand & nail cream set is perfect for head to toe pampering, and is in the new Noir perfume scent, a seductive and alluring fragrance of light musk, sandal and florals which will appeal to a wide spectrum of women. From the artisan candle makers Stoneglow UK, we've included their beautifully scented Ylang Ylang & Amber Scented Candle Tumbler gift. This is a luxurious, hand poured deep and mysteriously fragrant candle gift with oriental floral accords of ylang ylang, jasmine and iris, dark amber, ginger, black pepper and cinnamon will transport her to foreign shores and pamper in her own home. Another gifting ingredient to help that special lady escape the banality of everyday life is the Fragrance Of The World Journey Wax Melts Gift Book. Containing 12 differently fragranced natural, soy wax melts depicting a world famous destination, this clever gift set is the perfect present for wax melt enthusiasts, as it guides the receiver on a journey of the world via scent. From the beautiful aroma of Frangipani lining the streets in Bali to the fields of purple lavender in Provence, each scent is completely different from the last. A decorative Wax Melt Burner gift has been included with this gift set for convenience. There's no such thing as too many hand creams and so we've included the perfect gift for lady's handbag, a Seascape Apothecary Hand and Nail Cream formulated with 100% natural essential oils and beautifully fragranced with lavender, lemongrass and geranium oils to leave hands and nails feeling smooth and nourished. Contains no parabens, silicones, SLS or petroleum. Inside our heavenly pamper basket she will discover a pure and natural Bath Salt Tea Bag hand made by Wild Olive in Devon.
