Details

Our non-alcoholic hamper range is characterised by our desire to create the best, modern food hampers that celebrate high quality foods with a variation of flavours. As a hamper company we believe that the best quality foods overrule the inclusion of mediocre alcohol, and we wanted to share our passion about excellent foods with our customers. The Non-Alcoholic Chrome hamper has a perfect blend of both savoury and sweet foods to suit everyone's tastes, with a focus on the best items we know recipients want to receive the most. In particular, we made sure to include a classic box of chocolates, as well as baked caramel fingers and traditional cheese and relish. The Non-Alcoholic Chrome hamper basket was created with a beautiful purple colour running through the hamper which purposefully hints at a gift fit for Royals. The purple colours symbolise grandeur and mystery, which we believe is reflected in the best products we selected for this non-alcoholic gift hamper. The hamper is filled with lots of the best products of curiosity which the recipient is unlikely to have tried before, creating a magical tasting experience they will be sure to thank you for! This combined with all of the high quality non-alcoholic food items creates a perfect present for any occasion. Only once the products are harmonious in colour, taste and purpose was the hamper finalised. We are sure the recipient of this gift will not have tried most of the products within this non alcoholic hamper, it is filled with curiosity items making a memorable gift the recipient will be sure to talk about. When we critique and perfect our hampers to this level we know that our customers will be happy with them.
