Details

Tempting in taste and in price. Top tasting bakery goods completed by a range of sweet items where the producers have passion for their creations. Drawing you in with delicious products, it's hard to say no to our Christmas Tempter Gift Basket, especially at such a reasonable price. With both traditional and contemporary tastes this food hamper will leave you wowed. The products we chose for this hamper were chosen with dedication and care to make sure they were harmonious in colour, taste and concept. This ensures that when the gift is received it looks amazing, conveying the love that went into giving it. Taste is obviously a very important element of any food hamper and the tastes of the individual products have to complement each other and not just be random products thrown together, this is the concept of the gift. This makes a gift, not a selection of products. This is something we are very passionate about here and we really hope that you appreciate the time and effort that we put into creating the gifts that we send out. As most of our Christmas Hampers are sent as gifts, we understand how important it is that the gift shows how much love was intended when it was sent, this is why we hand pack all of our hampers with love, guaranteeing it will look beautiful with an outstanding presentation. Christmas Tempter arrives beautifully presented in a traditional wicker hamper with ribbon. Customers love the traditional wicker hampers which we chose, they celebrate the epitome of Christmas, and they create excitement when they are pulled out of the delivery cartoon and the recipient can rummage through and see all the artisan foods they have been sent. If you are looking for a Christmas gift and aren't sure what to give or are looking for something different this year, can you be tempted by the Christmas Tempter?
