Details

When you are considering the component parts of a Tea and Coffee gift, it's simple to understand that the key parts of such a gift must stand out as being of exceptional quality. With this in mind we selected a Great Taste Award Winning Black Tea and a recently launched Coffee Box containing 10 individually wrapped freshly roasted coffee sachets. The Coffee sachets are the finest quality single origin coffees from around the world and are all certified Fairtrade and Organic. There is Mellow South American Flavour which has a good body with subtle stoned fruit acidity, an African light roast, which is light on the tongue with an aromatic, fruity finish and a dark Sumatran roast with its intense Dark Chocolate finish. In other words these just aren't coffee bags, they are coffee taste experiences. We've selected 4 types of biscuits and tray-bakes to serve as an accompaniment with whatever flavour of Tea or Coffee you wish to drink. We continue the Organic theme with our Oat Cookies sourced directly from the Oat Farmer who produces them, to which we include our melt in your mouth Shortbread. We take advantage of local bakeries who produce our tray bakes freshly every week. We hope we do our part in bringing your quality to a wider audience and increasing the demand for your usage.
