## Quick Overview

Cheese and Wine Gift Hamper, which is updated for 2020, which we're extremely excited to unveil as its part of a whole new Classic Cheese and Wine gift range, which will be available throughout the year.

## Details

Key things to identify from this picture, which may not be easily identifiable on a small screen or when comparing the offerings of various companies: 1) Our Cheese truckles are 200g, which is a good and appropriate size for a waxed cheese. Most rivals will contain 100g, 2) Our chutney is 200g, which again is about the right size for its quality. Anything more is domineering, anything less looks a bit too mean given its purpose is for it to be applied generously and lavishly to the cheeses. 3) Our Wine is Silver Award Winner in 2014, which means its really pleasant. Once again it's full sized. The Gourmet Soda Breads are really unusual and complement the cheese and wine perfectly. They contain cranberry which is a nice seasonal touch and they won a gold at the great taste awards. Our other Oatcake biscuits are the best in the world so we put them in pretty much every savoury hamper in our range. We round things off with 2 savoury packs of nibbles with our gourmet street nuts and hummus crisps. What else would finish off this outstanding than chocolate truffles, chocolate apple sticks and chocolate puffs. Everyone loves chocolate and these finishing touches ensure that the Gift Box looks full with lots of new flavours and delicacies to try, and to love. We know you want the recipient to know how much love you are sending this gift basket with, we ensure that it is packaged and presented beautifully, so they know the love intended. As it is a Christmas Gift, we have included a gourmet Christmas pudding, helping the celebrations get under way in style. Possibly for an older couple with a refined palette, cheese and wine is hugely popular at Christmas due to this popular combination. It is also always well received.
