Details

Australian Cheese & Wine Gift is a new Classic hamper designed for our 2019 collection to reflect the importance of change and adaptation. What sets this Cheese and wine hamper apart from others in our range and by implication others from all the other hamper companies is the Barossa Valley Wine. Any afficionados will realise that the South Australian Region of Barossa makes superb fruit filled Shiraz wines at a price level, which sets the bar for European competitors to match. A hamper such as this containing a full bodied shiraz needs superb savoury items to complement it, which is why we've selected gold award winning chutney and pate to go alongside the selection of interesting little crispy snacks such as Sweet potato crisps, crispy beans and peas, gourmet multiseed toasts. However we don't just leave our savoury range of hampers dangling tantalisingly close to being the perfect solution to your gift giving needs by neglecting the role that chocolate plays in the sensory experience. We include several artisan chocolate types, not too much that it changes the primary differentiating factor as we insist upon quality over quantity. It means that the final result is just a hamper which oozes class.
